AUTOMOTIVE COMPOSITES CONFERENCE & EXHIBITION

Novi, MI • September 6-8, 2023

Presented by SPE Automotive and Composites Divisions

WORLD'S LEADING AUTOMOTIVE COMPOSITES FORUM

COMPOSITES THE KEY TO EV
AUTO & AIR MOBILITY

CALL FOR PAPERS

The automotive and transportation industries are advancing with composites playing a key role in the development of electric vehicles, air mobility, and sustainability initiatives worldwide. Lightweight composites are ideal materials for improving vehicle performance, reducing mass, extending range and compensating for battery weight. Polymer composites are enabling lower emission vehicles, reducing the carbon footprint and saving energy to benefit the environment now and in the future. Thermoset and thermoplastic composites are THE KEY TO EV AUTO & AIR MOBILITY

For more information and to register, go to:
https://speautomotive.com/acce-conference/

The presentations are organized into the following categories: Composites in Electric Vehicles, Thermoplastic Composites; Thermoset Composites; Modeling; Additive Manufacturing & 3D Printing; Enabling Technologies; Sustainable Composites; Bonding, Joining & Finishing; Carbon Composites; and Business Trends/Technology Solutions. **Paper Abstracts are still being considered.** Final scientific papers or non-commercial presentations are due by **June 16, 2023.** Authors who submit papers (not presentations) in the proper format will be considered for the conference's Best Paper Awards, which are presented during the event's opening ceremony. A template for papers can be downloaded from the SPE ACCE website online via http://speautomotive.com/acce-forms. Abstracts and papers or presentations must be submitted online via the **SUBMIT 2023 ABSTRACTS/PAPERS OR PRESENTATIONS HERE** button on https://speautomotive.com/acce-conference/.

SPONSORSHIP OPPORTUNITIES

SPONSORSHIP AND EXHIBIT OPTIONS offer companies the opportunity to support the event and promote their products and services to a very targeted and interested audience. All sponsorships include passes to the event including access to all keynotes, panel discussions, technical sessions and daily networking opportunities. Sponsorship also includes corporate exposure on SPE ACCE websites, advertising, publicity, social media, signage throughout the event venue and more. Companies interested in sponsorship should contact Teri Chouinard at intuitgroup@gmail.com.
