

JOIN US IN A **VIRTUAL** FORUM ADVANCING THE AUTOMOTIVE INDUSTRY WITH COMPOSITES

SPE ACCE 2020 is an exciting **virtual event** including keynotes, panel discussions, technical sessions, exhibits, and online networking opportunities!

KEYNOTE ADDRESSES PRESENTED BY AUTHORITIES IN AUTOMOTIVE COMPOSITES:

Ford Motor Company
American Chemistry Council – Plastics Division Auto Team

PANEL DISCUSSIONS FROM LEADING OEMS AND MATERIAL SUPPLIERS:

Sustainable Materials Management and the Circular Economy
How 3D Printing Is Changing the Automotive Composites Business

TECHNICAL SESSIONS IN CATEGORIES ESSENTIAL TO YOUR SUCCESS WITH AUTOMOTIVE COMPOSITES:

- Additive Manufacturing & 3D Printing
- Advances in Thermoplastic Composites
- Advances in Thermoset Composites
- Bonding, Joining & Finishing
- Business Trends & Technology Solutions
- Carbon Composites and Reinforcements
- Enabling Technologies
- Modeling of Composites
- Sustainable Composites

TECHNICAL PRESENTATIONS FROM INDUSTRY-LEADING OEMS, COMPANIES AND UNIVERSITIES:

- 3M
- Allied Composite Technologies, LLC
- AOC
- Astar
- BASF Performance Materials
- Baylor University
- Dieffenbacher
- e-Xstream Engineering
- Ford Motor Co.
- Forward Engineering
- Fraunhofer ITC
- Gemini Composites
- General Motors
- Hanwha Azdel
- Hexion
- INEOS Composites
- Johns Manville
- Karlsruhe Institute of Technology
- Molding Products
- Old Dominion University
- Purdue University
- Solepox
- Strategia
- Sun Chemical Corporation
- Technical Fibre Products Inc.
- Toyota
- Trillion Quality Systems
- University of Maine
- University of Waterloo
- University of Western Ontario
- Vartega
- Virginia Polytechnic Institute
- Washington State University
- Western University
- Zoltek
- AND MORE!

DETAILED AGENDA AND MORE INFORMATION COMING SOON!

**All Keynotes, Panels, Sessions and Presenters are subject to change.*
