

You are cordially invited to attend the 23rd -annual SPE® Automotive Composites Conference & Exhibition (ACCE), the World's Leading Automotive Composites Forum, Sept. 6 - 8, 2023 at the Suburban Collection Showplace - Diamond Banquet and Conference Center in Novi, Michigan.

The SPE Automotive and Composites Divisions jointly sponsor the annual Automotive Composites Conference & Exhibition (ACCE). This event is designed to educate and update automotive design and production engineers, sales personnel, and management from transportation OEMs and Tier suppliers about the benefits and expanding importance of thermoset and thermoplastic composites in passenger vehicles, light trucks, and other ground transportation applications. The event provides excellent networking opportunities and draws over 800 speakers, exhibitors, and attendees from the Americas, Europe, Asia, Africa, and the Middle East.

OEMS ATTEND FOR FREE!

OEMs working directly for a transportation OEM (not their suppliers) defined as original-equipment manufacturers who directly produce automotive, heavy truck, recreational, military, public transportation, off highway vehicles or equipment, or aerospace and aviation vehicles may attend the event free of charge.

Registration is easy.

Go to <https://speautomotive.com/acce-conference/> and click on the “REGISTER FOR 2023 ACCE” button. Follow the Prompts and register as an OEM for a free pass to the event.

You will receive confirmation of your registration via email with more information. Passes include access to all keynotes, panel discussions, technical presentations, and networking sessions including breakfasts, lunches and receptions.

We are looking forward to seeing you at the SPE ACCE 2022 Event! If you have any questions or would like more info – please contact Teri@intuitgroup.com or 248.701.8003.
